

Specialist Treatment Therapies with Master Jet Lee

Chinese Acupressure Massage Treatment

A one hour specialist body treatment with Master Jet Lee (included in both Program A and B).

This specialist treatment uniquely combines both chiropractic adjustments with traditional chinese acupressure massage. It is a full body treatment and bone & joint adjustments. Chiropractic adjustments help physically realign the physical anatomy structure of the body (especially after any injury), while the acupressure massage helps improve the circulation of blood and energy flow towards the treated areas.

There is just no substitute for a proper anatomical adjustment of the physical bone structure. It can work wonders. After any injury the bones/joints need to be checked that everything is in place properly, this is an important issue so that the injured area heals properly going forward and restores to full use/condition the same as before the injury.

The combination of chiropractic adjusts and acupressure treatment help the body stay in correct form and alignment for much longer.

* This is not 'Acupuncture' which uses needles, we do not do that therapy.

Other Treatments With Master Jet Lee

Chinese Cupping

Chinese cupping is a traditional time honoured therapy that is safe, comfortable and an effective treatment for many health disorders. It is a very long established therapy used in traditional Chinese Medicine (TCM) for many health conditions.

Glass cups are placed on the skin with vacuum suction and causes the blood to be drawn to that area of the skin. This Cupping therapy stimulates the blood circulation in this area which also influences the flow of Qi meridians (energy pathways) throughout the body. It is used to treat colds, lung infections, and problems in the internal organs too as well as to treat muscle and joint pain and spasms, particularly in the back. The process leaves round red marks (raised) where the cups were. These marks will dissappear within a few days.

Reiki Healing

Reiki activates the body's natural ability to heal itself. Reiki energy goes to the deeper levels of a person's being, where many illnesses have their origin. It works wherever the recipient needs it most, releasing blocked energies and working to create a state of balance.

The Reiki energy is perceived as heat or sensation that comes from the channel's hands. It is gentle and stimulates the body's own innate wisdom to cure at the cause of the problem, promoting a holistic balancing of body, mind and spirit. Reiki promotes deep relaxation and releases blockages within the physical, mental, emotional bodies.

About Master Jet Lee

Jet Lee is originally from Hong Kong. He is a master of his craft and an acupressure specialist of the body.

He trained in ancient Chinese Acupressure "Nerve Art Massage" with a Chinese Master, Wushu (Chinese Martial Arts), and also Tai Chi in a monastery in China for over 4 years. He then studied in Tibet for 2 years meditation alongside Tibetan Monks while studying Vipassana Meditation and Indian Head Massage.

His Acupressure treatment is similar to a Chiropractic treatment as he adjusts all the bones throughout the whole body from head to toe. He also includes the massage of the soft tissues which makes this unique combination very effective. You will feel like you have a new body after even just one treatment.

He is highly skilled in his practice of body adjustment treatment as well as Chinese Cupping too and is considered to be one of the best in his field.

Nearly every customer uses the word 'amazing' afterwards to describe their experience with him.

He is registered and certified with the Thai Traditional Medicine Association.

Client Reviews of Master Jet Lee
