Natural Organic Herbal Detox & Weight Loss

Natural ~ Effective ~ Safe

We offer two options to do our **Master Herbal Detox Retreat Program**:

Program A

Program B - new program!

Both our programs are easy and simple to do. You take the herbal formulas in the morning and some again at night. There is a formula for each organ system of the body so you can treat the whole body all at the same time.

Our herbal formulas both detox and cleanse, and also rebuild and repair the body organs which is unique - *these advanced herbal medicine formulas have the ability to do this!*

During either program, you will be on our suggested [Daily Detox Diet](#) choices if you choose to do this, while also taking the 8 herbal formulas daily (morning and night).

Also included daily activities in your program are: yoga, Thai massage treatments, herbal steam room, fitness facility, swimming, meditation instruction and our specialist [Acupressure treatment](#) (done at our detox center).

Choose your desired program duration, anywhere between 3 - 28 days. 14 Days is a very effective number of days to do.

No Colonics needed!

An important feature and great advantage of our program is that you do not need to use colonics, colemas or enemas.

Nor do you have to take the psyllium husk drinks (shakes) etc.

This is because we use our advanced herbal Colon & Intestine formula called **Flow Formula** (capsules), exclusively produced by us, which will work quickly to create and restore proper normal daily bowel function (1-3 times per day ideally) as well as repair and rebuild not only the colon but also the small intestine from the stomach all the way down to the large intestine (colon) as well as restoring the proper bacteria balance in the gut. It is a very sophisticated intestinal formula and is greatly more effective, more natural and much more pleasant to use than having to put water up inside your colon (colonics/enemas).

We are the only health program that can avoid using the colonics system because of this formula which is a great delight and relief to many of our customers especially when they see and feel how well it works.

About our Master Herbal Formulas

Our [herbal formulas](#) are 100% natural and organic as we grow our own herbs so they contain only natural herbs and nothing else unnatural.

Our Master Herbalist has been making our formulas for twenty years now and they are the original formulations of The Western Herbal System which originated in Germany in the 1950's which we faithfully hand produce according to the original recipe specifications. They were the acknowledged world experts in not only herbal medicine but allopathic medicine too. These original herbal formulas are very advanced and sophisticated, potent, yet completely stable never causing any harsh or adverse reactions etc. whatsoever. They are very gentle on the body system.

It is these advanced formulas that are able to achieve the results naturally and safely. Our herbal formulas both detox and also rebuild the body organs which is unique as these advanced herbal medicines have the ability to do this. They have been proven to be very effective and safe over a long period of time. Proper and correctly made herbal medicine formulas can do amazing things for the body in a short period of time. They taste remarkably good too (syrups), with the Tinctures being quite strong tasting.

It cleans out the liver and gallbladder of toxic waste, bad cholesterol, old drug residues, parasites/worms and gallstones out of the gallbladder, and also vaccine toxins too. It has positive knock on effects on the other body organs too as it allows those organ systems to start cleansing more and processing everything through the liver whose job it is to do this. So a cleaner liver allows it to perform and function better in all the jobs that it has to do. You will lose some extra weight by doing it also, 1kg extra is normal to lose when you do the liver flush.

About the 'Detox Daily Diet' choices

On the program you choose what to eat/drink each day from our four suggestions.

Choose between: • Juice Fast • Whole fruits • Combination of juices and fruits (all are included in Program A & B)
• Raw/healthy food (available in the health restaurant but not included)

The juice fast is the most effective one and is what 90% of customers choose to do. We use our proprietary orange juice fast which was an old and highly successful health protocol from the 1950's.

It gets the best results because it cleans the blood, and also cleans the acid waste out of the body and is 100% natural and safe.

So you are combining the power of the herbal formulas with the cleansing power of the juice fast which is a very effective combination and is very enjoyable to do too. Read more about our daily detox diet suggestions [here](#).

The Daily Program Routine Example (Program A or B):

You take the herbal formulas in the morning and some again at night.

Morning:

- 7 am (or when you wake up) – take all the herbal formulas one after the other
- Start your [daily detox diet](#), choose between using fruit juices or eating whole fruits
- Use all the included health facilities and treatments at The Spa Resort (Beach)

Lunchtime & Afternoon:

- Keep going with your daily diet choice
- Do Thai massage, acupuncture treatment, enjoy the swimming pool and beach

Evening:

- Keep going with your daily diet choice
- Enjoy the herbal steam room or Thai massage treatment
- 7pm-9 pm - take night-time herbal formulas

You will have a lot of free time too which can be used for other activities, or reading or computer work etc.

The two most common observations that customers have which greatly and pleasantly surprises them while on the program are:

1. They do not feel hungry at all – this is because the herbs reduce cravings for un-natural foods, and the juices/fruits are feeding the body it's natural energy fuel too.
2. They have good energy each day - this is because the body is getting very good nutrition now and also does not have to digest normal meals. Less sleep is required too.

Program Results

You will feel much better even after just a few days on our 'natural health program'. Excess weight loss is a side effect of making the body more healthy.

There will be a huge improvement in your overall health and you will have used natural methods to achieve this. Customers look so much healthier and are feeling much better even after just 3-4 days on the program.

If you do not want to lose much weight then we will modify your program to achieve this.

Some other benefits include:

- Skin condition improves, and energy levels too
- Restores correct intestinal probiotic flora in the colon
- Eliminates heavy metals & reduces bad cholesterol
- Replenishes vital vitamin & mineral levels in your body
- Reduces cravings for unhealthy foods

The average weight loss per customer that you can expect is:

7 Days: 2 - 4 kgs / 4.4 - 8.8 lbs

14 Days: 4 - 8 kgs / 8.8 - 17.5 lbs

Some people lose more. We have had customers lose 10kgs/22 lbs over 14 days who did no exercise at all.
