The Master Herbal Formulas: Cleanse and restore all the major body organs

The Tonic Elixir Drinks

Tonic Elixir Drinks are about using the natural chemistry effect or 'Alchemy' ('all the chemistry') when you combine different natural ingredients (fruits juices mostly) with herbal tinctures that then create an 'elixir' which performs an effective cleanse and restore function for that body organ that they target.

They are taken at the peak organ function time of the day for that body organ for maximum cleanse and restore effect. All the body organs have a two hour window when they are at their peak function (they come online, perform their cleanse and restore functions and then go offline).

In a way these drinks are almost as powerful as the herbs and are a great addition to the program with the goal of doing the maximum amount of restoration in the shortest time possible. And they taste great too.

They are specially and freshly prepared drinks each day and are taken at different times throughout the day for 3 days in a row each week you are doing the program.

The Tonic Elixir Drinks reset the body organ systems (timing)

Example of organ times:

The **Small Intestines** organ is at it's peak function every day at 1pm – 3pm. This is a perfect time to target this organ to cleanse it and restore it.

The **Kidneys & Bladder** are at their peak function every day at 3pm – 7pm.

This is an ideal time to give them some cleanse and restore therapy using the Tonic Drinks at this time which do this (as well as to the inter-connected bladder and urinary tract)

The Orange Juice Fast Program

The orange is one of the most powerful foods in nature.

The OJ Fast cleans the blood and also cleans the acid waste out of the body too.

It is easy and enjoyable to do and everyone is surprised that they do not feel hungry and have good energy each day.

Our unique Orange Juice Fast is a highly successful old medical program that cured 63,000 people of all known diseases and it is on record as such. Created by a prominent doctor (Dr William Hay) in the 1930's in the USA in his medical clinic.

Drink a small glass of fresh orange juice every few hours throughout the day, for every day that you are on the OJ Fast. Do it anywhere from 3, 7, 14 or even 21 days. We explain the difference in results between the different number of days.

The Liver & Gallbladder Deep Cleanse Program (The Liver Flush Program)

Use this program to clean out the liver and gallbladder.

Cleansing the liver and gallbladder can greatly improve your body's health

It fully cleanses and detoxifies the liver and gallbladder of toxic waste, parasites and bad cholesterol.

Benefits of the Liver Flush:

- Cleans out the liver & gallbladder of toxic waste, parasites, drug and vaccine residues, bad cholesterol and sometimes gallstones
- Restores the liver and gallbladder to better function
- Prevents future problems with liver and gallbladder or gallstone issues
- Improves skin condition (related to the liver) and eyesight (related to the gall bladder)
- Eliminating the gallstones improves digestion, which is the basis of our whole health
- Allergies can disappear and it can eliminate shoulder, upper arm, and upper back pain too
- Stomach infections such as ulcers and intestinal bloating can be cured by removing gallstones from the liver
- Reduces weight. You lose 1kg / 2.2 lbs on each flush
- Simple and easy to do
